Message

The mini tour is a casual walk around the hot spring town before the banquet.

Local guides will lead you through shrines, hot spring streets, public baths, and footbaths.

Let's take a seat on the “engawa” of Beniya Ryokan, where the city and agriculture interact.

Awara Onsen is celebrating its 140th anniversary this year.

Breakup

Awara Onsen began when a farmer was washing his feet in a rice field when hot springs began to gush out.

Despite being destroyed by fire many times, it has been revived and is now building a connection between hot springs and agriculture.

We will take a break with Japanese sweets and tea at Beniya Ryokan, the oldest luxury inn in Awara.

The landlady will talk about hot springs, food, and agriculture.

I'm looking forward to meeting everyone.
